Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

Teaching, learning, and evaluation at Sandip University are effectively facilitated through a robust and comprehensive Learning Management System (LMS) implemented across all departments. The LMS supports every aspect of the student life cycle—academic as well as non-academic—by providing individualized access to students and faculty through secure logins. Designed to meet the needs of all stakeholders, including students, parents, and faculty members, the institutional LMS ensures seamless integration of technology into the teaching–learning process.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

Assessment mechanism	<p>Sandip University Online Learning Portal: Remote Proctored Examination System (RPES) 1. Examination Mode All examinations at Sandip University (Theory / Practical / Project) are conducted online through the Remote Proctored Examination System (RPES). No physical presence at the campus or examination center is required. 2. Examination Platform The examinations are administered through the Sandip University Online Learning Portal integrated with the Remote Proctored Examination System (RPES) to ensure secure and transparent conduct of assessments. 3. Mock Test A mock test will be conducted before each end-semester examination to help students familiarize themselves with the online examination interface, navigation, and upload procedures. 4. Examination Pattern • Objective Type Questions (MCQs): To assess conceptual understanding and recall. 5. Hardware and Software Requirements To appear for the online examination, students must ensure the following: • A laptop or desktop with a functional webcam. • Windows operating system installed. • Stable internet connection with good bandwidth. • Mobile phone or scanner to capture and upload answer sheets. 6. General Instructions • Students must log in to the RPES portal at least 30 minutes before the scheduled start time. • The webcam must remain active throughout the examination. • Any malpractice or system tampering will be recorded and may lead to disciplinary action. • Ensure your system is fully charged or connected to a power source during the exam.</p>
Identified technological interface and interoperability	<p>Sandip University has established a robust technological interface ensuring seamless integration and interoperability across all digital platforms used for academic and administrative functions. Key Features Learning Management System (LMS): Centralized platform integrating course delivery, attendance, assignments, assessments, and feedback. ERP Integration: Complete linkage between LMS, Student Information System (SIS), Examination System, and Finance modules. Remote Proctored Examination System (RPES): Integrated with LMS for secure online examinations and real-time monitoring. Mobile App Connectivity: Students and faculty can access courses, attendance, and grades through the Sandip University mobile app. Cloud-Based Storage: Ensures data security, scalability, and easy retrieval of academic records. Interoperability: All systems communicate through APIs, ensuring smooth data flow between departments and user interfaces. This integrated digital ecosystem enables efficient academic delivery, monitoring, and decision-making while supporting the university's vision of technology-driven education.</p>
Learner's Authentication Requirements	<p>Sandip University ensures secure and verified learner participation in all online academic and examination activities through a robust authentication system. Key Requirements Unique Login Credentials: Each student is provided with a unique username and password to access the LMS and RPES. Two-Factor Authentication (2FA): Verification through registered email or mobile number before login. Photo and ID Verification: Student profile includes verified photograph and University ID for identity confirmation. Live Proctoring: During online examinations, continuous webcam monitoring and AI-based face recognition ensure the authenticity of the learner. Activity Tracking: LMS logs record login time, duration, and activity history to prevent impersonation. Secure Data Policy: All authentication data is encrypted and stored on secure University servers.</p>
Learner Registration - through a web application	<p>Sandip University facilitates online learner registration through a dedicated web-based application integrated with the University's ERP and LMS platforms. Key Features Online Registration Portal: Students can register from anywhere using the official university web application. Unique Student ID Generation: Upon successful registration, a unique Enrollment / Student ID is automatically generated. Document Upload: Students can securely upload required documents such as photo, signature, and academic certificates. Online Fee Payment: Integrated digital payment gateway for convenient and secure fee transactions. Automated Data Integration: Registered data automatically syncs with the LMS, ERP, and Examination System for seamless access. Confirmation and Communication: Registration confirmation and login credentials are sent to the student's registered email and mobile number. This web-based registration system ensures a paperless, transparent, and efficient admission process while maintaining data accuracy and integrity.</p>
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	<p>Sandip University promotes active learner engagement through its integrated Learning Management System (LMS), supported by real-time analytics and comprehensive reporting tools. Key Features • Interactive Learning Modules: Courses include videos, quizzes, discussion forums, and live sessions to enhance student participation. • Continuous Assessments: Regular online assignments, MCQs, and polls keep learners actively involved throughout the course. • Attendance and Participation Tracking: The LMS automatically records login time, activity duration, and participation frequency. • Engagement Analytics Dashboard: Faculty and administrators can monitor student engagement levels, course completion rates, and performance trends. • Automated Alerts: Notifications are sent to learners with low activity or pending tasks to encourage timely participation. • Reporting and Review: Detailed analytics reports are generated for faculty and IQAC to assess learner engagement and improve instructional strategies.</p>
Payment Gateway –using Digital Payment system	<p>Sandip University has implemented a secure and user-friendly digital payment gateway integrated with its ERP and online admission systems to facilitate all financial transactions efficiently. Key Features • Multiple Payment Modes: Supports credit/debit cards, net banking, UPI, and digital wallets for easy fee payments. • Integration with ERP: All transactions are automatically linked with the student's academic and financial records in the University ERP. • Instant Receipt Generation: Digital receipts are generated immediately after successful payment and shared via email/SMS. • Secure Transactions: Payments are processed through gateways ensuring data encryption and fraud protection. • 24x7 Accessibility: The system allows students and parents to make payments anytime, from anywhere. • Reconciliation and Reporting: Automated reconciliation of payments with transparent reporting for the Accounts Department. This digital payment system ensures a cashless, transparent, and efficient financial process across all academic and administrative transactions at Sandip University.</p>

Tracking the delivery of a Course or programme	Sandip University ensures effective monitoring and tracking of course and programme delivery through its integrated Learning Management System (LMS) and ERP-based academic management system. Key Features Course Plan Integration: Each course is mapped with its syllabus, lesson plan, and timelines on the LMS before the semester begins. Faculty Course Progress Tracking: Faculty regularly update completed topics, learning materials, and assessment records, which are monitored by HODs and Deans. Attendance Monitoring: Student attendance for each session (online/offline) is captured and reflected in the ERP and LMS dashboards. LMS Analytics: Real-time analytics provide insights on content delivery, student access frequency, and completion status. Evaluation Tracking: Continuous Internal Assessments (CIAs), assignments, and exams are recorded to verify timely academic delivery. Review and Reporting: Weekly and monthly academic progress reports are auto-generated for departmental and IQAC review. This systematic tracking mechanism ensures that every course and programme is delivered as per the academic plan, maintaining transparency, accountability, and quality in the teaching-learning process.
Technical Know-how or Skills Requirements	Sandip University ensures that both learners and faculty possess the technical know-how and digital skills necessary for effective participation in online teaching, learning, and evaluation processes. Key Requirements Basic Computer Literacy: Familiarity with operating systems, file handling, and web browsing. LMS Usage Skills: Ability to log in, access study materials, submit assignments, attempt quizzes, and track progress on the Learning Management System (LMS). Online Communication Skills: Proficiency in using video conferencing tools (e.g., Google Meet, Zoom, Microsoft Teams) for virtual classes and discussions. Digital Examination Competency: Understanding of online test navigation, remote proctoring norms, and answer sheet upload procedures. File Management: Skills to scan, upload, and convert documents/images in required formats (PDF/JPG). Cyber Awareness: Knowledge of online safety, password protection, and responsible digital behavior. Technical Support Familiarity: Awareness of University's helpdesk and support channels for resolving technical issues. These essential digital competencies enable smooth functioning of the technology-driven academic ecosystem at Sandip University.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

Sandip University has established state-of-the-art ICT infrastructure to effectively support the design, delivery, and monitoring of online courses. Key ICT Facilities High-Speed Internet Connectivity: Campus-wide broadband and Wi-Fi network ensuring uninterrupted online teaching and learning. Learning Management System (LMS): Centralized digital platform for hosting e-content, assignments, quizzes, and assessments. Remote Proctored Examination System (RPES): Secure system for conducting online examinations with live monitoring. Smart Classrooms and Studios: Equipped with digital boards, HD cameras, and audio-visual systems for content recording and live streaming. Cloud-Based Storage: For safe and scalable storage of e-resources, lecture recordings, and student data. Video Conferencing Tools: Licensed platforms (Google Meet, Zoom, Microsoft Teams) integrated for virtual classes and academic meetings. Technical Support Centre: Dedicated ICT team providing real-time assistance for smooth online operations. These facilities ensure a seamless, reliable, and technology-enabled ecosystem for the effective implementation and delivery of online courses at Sandip University.
